In this article, Table 1 has been published in a confusing layout.
We would like to clarify that the table should look as follows:

Table 1 Tumour-node-metastasis (TNM) staging of anal carcinoma according to lesion site of origin

	Anal canal	Anal margin
Primary tumour (T)		
TX	Primary tumour cannot be assessed	
T0	No evidence of primary tumour	
T1	Tumour ≤ 2 cm in greatest dimension	
T2	Tumour 2 - 5 cm in greatest dimension	
T3	Tumour > 5 cm in greatest dimension	
T4	Tumour of any size invading adjacent organ(s) e.g. vagina, urethra, bladder	Tumour invading deeper structures (skeletal muscle, cartilage)
R regional lymph nodes (N)		
NX	Regional lymph nodes cannot be assessed	
N0	No regional lymph node metastasis	
N1	Metastasis in perirectal lymph node(s)	Regional lymph node metastasis
N2	Metastasis in unilateral internal iliac and/or inguinal lymph node(s)	
N3	Metastasis in internal iliac and perirectal lymph nodes and/or bilateral internal iliac and/or bilateral inguinal lymph nodes	
Distant metastasis (M)		
M0	No distant metastasis	
M1	Distant metastasis
