## A

**Abdel Razek N.M., Shaalan M., Yousef O., Omar O.S., Naguib S., Soliman O.**

Image-guided breast lesion excision biopsy versus vacuum-assisted breast biopsy for suspicious non-palpable breast lesions (SS 202), B-0220

**Abdolell M., Tsuruda K.M., Iles S.E., Lightfoot C.B., Payne J.I., Caines J.**

Fully automated breast density measures and breast cancer risk: a case-control validation study (SS 1702), B-0830

**Abdulhussein H., Morrissey D., Chan O.**

High-volume image-guided injection with or without steroid for achilles tendinopathy: a prospective study (SS 210), B-0185

**Abdullah B.J., Yeong C.H., Goh K., Yoong B., Ho G., Kulkarni A.**

Early experience of a commercial available robot (Maxio) for CT-guided radiofrequency ablation of liver tumours (SS 109), B-0121

**Abehsera M.M., Gugliemina J., Stoinov J.I., Poncelet E., Laurent N., Boulanger L., Dana A., Tibi C., Kovatcheva R.D.**

Ultrasound guided HIFU treatment of breast fibroadenoma (SS 102b), B-0075

**Aberle D.R.**

Computed tomography screening for lung cancer: is it time to implement individual lung cancer screening in clinical practice?: A. Implications of the national lung screening trials (NLST) (MC 424), A-062

**Abishev B., Tazhibaev D.**

Uterine artery embolisation: long-term follow-up of leiomyoma (SS 1809), B-1051

**Adam A.**

Interventional radiology in oncology: Chairman's introduction (PC 4), A-098

**Adams J.E.**

Body composition: a new string to the radiologist's bow: Body composition: why and how? (SF 15a), A-474

**Adamsbaum C., Husson B., Deiva K., Tardieu M.**

Autoimmune disorders in children: C. Multiple sclerosis in children (RC 812), A-211

**Aghaghazvini L., Sharifian H., Salahshur F., Yazdani N., Shakiba M., Kooraki S.**

Dynamic contrast enhanced MRI for differentiation of major salivary glands neoplasms, a 3-T MRI study (SS 508), B-0393

**Aghaghazvini L., Sharifian H., Omidi S., Yazdani N., Kooraki S.**

The role of magnetic resonance spectroscopy for differentiation between major salivary glands neoplasms (SS 508), B-0395

**Agostini G., Venturini M., Maffi P., Balzano G., Piemonti L., Del Maschio A.**

Single centre experience of extending indications for percutaneous intraportal pancreatic islets auto-transplantation after pancreatic surgery to prevent type-1 diabetes: feasibility, technical aspects, complications, and clinical outcome (SS 1309), B-0734

**Agresti R.**

Multidisciplinary team meeting from Milan, IT: B. The surgeon's point of view (E<sup>3</sup> 820c)

**Aguilar-Pérez M., Kurre W., Fischer S., Bätzner H., Henkes H.**

Safety and efficacy of a new device for the treatment of wide neck bifurcation aneurysms: preliminary experience (SS 1311), B-0713

**Aherne E., Moriarty H., Egan M., Lawler L.**

Multidisciplinary meetings and radiologist workload: a retrospective and prospective review in a tertiary university centre in Ireland (SS 216), B-0210

**Ahlström H.**

Diffusion MRI: everything you always wanted to know but never dared to ask: Clinical applications of diffusion MRI (body) (Joint Session of the ESR and ESMRMB), A-245

**Ahlström H.**

Management of bone metastases: Chairman's introduction (RC 1616), A-532

**Ahlström Riklund K.**

Pitfalls in FDG PET/CT imaging: Chairman's introduction (SF 3), A-036

**Ahn S., Lee J., Joo I., Lee E., Han J., Choi B.**

Hepatocellular carcinoma: correlation between microvascular invasion with image findings of gadoteric acid-enhanced MR and [<sup>18</sup>F] FDG uptake on PET/CT (SS 1301), B-0679

**Aigner F.**

Elastography as a new tool: US elastography of the prostate (SF 16e), A-554

**Aime S., Schönberg S.O.**

Molecular imaging and targeted-image guided therapy in gastrointestinal stromal tumours: Introduction (MITIGATE Session)

**Aime S.**

Molecular imaging and targeted-image guided therapy in gastrointestinal stromal tumours: Functional and molecular imaging in tumour therapy response assessment (MITIGATE Session), A-275

**Akata D.**

Misses and difficulties in abdominal imaging: A. Mesentery and peritoneum (RC 401), A-059

**Akça A., Anık Y., Sakçı Z., Gençtürk M., Özkul B., Kaya A., Altıntaş Ö.**

Effects of refractive errors on functional magnetic resonance imaging of visual cortex (SS 1711), B-0852

**Akhan O.**

Thoracic nonvascular interventions: Chairman's introduction (RC 1209), A-371

**Aktay R., Mazzone P., Love T.E.**

Tobacco smoking and screen-detected lung cancer: does it matter beyond 30 pack-years? (SS 104), B-0021

**Al Faraj A., Sultana Shaik A., Al Sayed B., Halwani R.**

MR imaging and targeting of a specific alveolar macrophage subpopulation in COPD animal model using antibody conjugated magnetic nanoparticles (SS 606), B-0525

**Al-Jebaly A., Alkubayyer M.A., Alorainy I.**

Normal variations of the falx cerebri shape based on MR data (SS 511), B-0355

**Alberich-Bayarri A., Sanz-Requena R., Garcia-Marti G., Marti-Bonmati L.**

Optimisation of b-values in MR diffusion-weighted acquisitions through information theory: a mathematical justification for consensus (SS 916), B-0580

**Alberti N., Buy X., Frulio N., Kind M.**

Myxoid containing tumours of soft tissues: MRI appearance with radiologic-pathologic correlation (SS 910), B-0564

**Alberti N., Ferretti G.R., Buy X., Palussiere J.**

Diaphragmatic hernias after lung percutaneous radiofrequency ablation: incidence and risk factors (SS 1709), B-0884

**Albrecht M., Wichmann J.L., Müller C., Ackermann H., Sakthibalan S., Hammerstingl R., Bechstein W.O., Schreckenbach T., Zangos S., Vogl T.J.**

Diagnosing MRI and CT in patients with colorectal liver metastases: diagnostic performance and inter-observer agreement of four different qualified reviewers (SS 1301), B-0680

**Albrecht T.**

Low Kvp protocols: what you should know (SY 18)

**Alexopoulou E.**

Autoimmune disorders in children: B. The digestive tract (RC 812), A-210

**Alexopoulou E.**

Childhood abdominal emergency 2014: the dos and don'ts: Chairman's introduction (SF 15c), A-487

**Alkadhi H.**

Polytrauma: redefining imaging issues for management priorities: Chairman's introduction: advanced imaging, logistics and management priorities in patients after polytrauma (RC 817), A-199

**Allegranza P., Ippolito D., Leone F., Bonaffini P.A., Sironi S.**

Incidental hypervascular pancreatic lesions: prevalence and imaging features on MDCT (SS 201a), B-0151

**Allegranza P., Ippolito D., Bonaffini P.A., Leone F., Fior D., Casiraghi A., Sironi S.**

Diagnostic accuracy of 256-detector row computed tomography in detection and characterisation of incidental pancreatic cystic lesions: a large population series (SS 201a), B-0152

**Allen S.D.**

Follow-up of local treatments of breast cancer: B. Pre-imaging and post-imaging appearance of breast lesion excision system (BLES) lesions (CC 1618), A-558

**Aloraini Z., Veillon F., Riehm S., Matern J., Rock B., Charpiot A., Debry C., Hemar P.**

Imaging of perilymph fistulae of the round and oval windows in the absence of a fracture (SS 208), B-0176

**Altmann-Schneider I., de Craen A., Veer I., van den Berg-Huysmans A., Slagboom P., Westendorp R., van Buchem M., van der Grond J.**

Preserved white matter integrity is a marker of familial longevity (SS 1811b), B-1021

**Alvarez-Linera J.**

Central nervous system changes after treatment: what you need to know: B. Imaging of treated brain tumours (E<sup>3</sup> 820b), A-204

**Amoretti N.**

Percutaneous treatment of chronic back pain and sciatica: C. Intervertebral disc syndrome (RC 809), A-235

**Andreini D.**

Low dose cardiac CT with 270 concentration isosmolar contrast media: the right choice for image quality and patient care? (SY 28)

**Angileri S.A., Rizzo S., Maccagnoni S., Calareso G., Landoni F., Raimondi S., Pasquali E., Lazzari R., Bellomi M.**

Pre-operative MRI in early stage cervical cancer may predict the need of adjuvant therapies: a single-center experience (SS 216), B-0205

# Authors' Index

**Annoni A.D., Formenti A., Pontone G., Nobili E., Petullà M., Mushtaq S., Ballerini G., Pepi M., Andreini D.**

Feasibility of an ultra-low dose CT for left atrium and pulmonary veins imaging using VEO (model-based iterative reconstruction) (SS 503), B-0296

**Anselmi M., Catalucci A., Felli V., Patriarca L., Pino M., Mazza M., Gallucci M.**

Regional cerebral changes and functional connectivity during the observation of negative emotional stimuli in earthquake survivors with post-traumatic stress disorder in l'Aquila (SS 1711), B-0854

**Antonuccio E., Iezzi R., la Torre M., Guerra A., Nestola M., Bonomo L.**

Comparison between transcatheter arterial chemoembolisation (TACE) and transcatheter arterial chemoembolisation combined with percutaneous radiofrequency ablation (TACE-RFA) for treatment of intermediate hepatocellular carcinoma (SS 509), B-0388

**Antulov R., Dolic K., Fruehwald-Pallamar J., Miletic D., Thurnher M.M.**

Comparative evaluation of fungal and pyogenic brain abscesses with susceptibility-weighted imaging (SS 1811b), B-1019

**ap Dafydd D., Desai S.R., Gordon F., Copley S.**

Trachea morphology on CTPA: correlation with extent and distribution of adipose tissue (SS 904), B-0550

**Apfalter P., Schoepf U.J., Spears J., Pilz L., Schönberg S.O., Henzler T., Vliegenthart R.**  
Cardiac mortality and morbidity in breast cancer survivors after radiation therapy - is coronary atherosclerosis the culprit? (SS 1304), B-0659

**Apitzsch J.C., Westphal S., Penzkofer T., Knüchel-Clarke R., Mahnken A.H.**

Comparison between unenhanced and contrast-enhanced post-mortem CT for diagnosis of death by cardiovascular events at virtual autopsy (SS 1803), B-0918

**Apolikhin O., Sivkov A., Oschepkov B., Roshin D., Koryakin A.**

Five-year results of prostate cancer permanent brachytherapy: the importance of postimplant CT-based quality control (SS 216), B-0206

**Arcuri P., Arcuri V., Roccia S., Gigliotti M., Molica S., Fodero G.**

Contrast enhanced total spine MRI and DWI evaluation of disease activity in monoclonal gammopathy of undetermined significance and multiple myeloma (SS 1316), B-0642

**Arellano Reynoso A., Aguilar Castañeda E.**

Eloquent brain areas localisation by functional MRI in tumour resection surgery (SS 1711), B-0859

**Argyropoulou M.I.**

Imaging the head and skull base: B. All about the paediatric pituitary gland (RC 1912), A-581

**Arikidis N., Sakellaropoulos P., Skiadopoulos S., Karahaliou A., Vassiou K., Costaridou L.**

Real time and accurate segmentation of mammographic microcalcifications (SS 605), B-0421

**Arkhipova I., Sinitsyn V.E., Mershina E.**

The role of the radiographer in image acquisition and processing: Interlude: Russian art and culture (EM 5), A-269

**Arnaud F., Legrand L., Sibileau E., Boulay I., Zins M.**

Pancreatic adenocarcinoma: comparison of six MRI sequences including diffusion-weighted imaging for tumour conspicuity (SS 201a), B-0159

**Arrigoni F., Gregori L., La Marra A., Conchiglia A., Zugaro L., Barile A., Masciocchi C.**

Our experience of non-invasive treatment of epiphyseal benign bone lesions using MRgFUS: can it really be a definitive solution? (SS 209), B-0263

**Arshad M.A., Howard L., Chan E., Giannarou S., Yang G., Copley S.**

Comparison of HRCT data in idiopathic pulmonary artery hypertension (IPAH) and normals using fractal dimension analysis (SS 904), B-0541

**Åslund M.**

Future applications of photon counting spectral mammography (SY 27)

**Atkov O.**

Opening Ceremony - Presentation of Honorary Members - Opening Lecture: Etudes of space radiology (OL), A-055

**Attard Mifsud S., Castillo J., Zarb F.**

Setting standards for an MRI unit in Malta: a study in establishing image quality criteria for MRI of the knee joint (SS 1814), B-1058

**Attenberger U.I., Schönberg S.O.,**

**Hausmann D., Weidner A., Morellini J.N., Dinter D.J., Haecker A., Sertdemir M.**

Is there a role for functional MR techniques for the assessment of extracapsular extension in prostate cancer? A preliminary analysis with histopathologic correlation (SS 507), B-0343

**Attye A., Tropès I., Karkas A., Righini C., Bettega G., Krainik A.**

MR tractography of the intraparotid facial nerve (SS 908), B-0556

**Avanesov M., Patten M., Münch J., Bannas P., Sähring D., Tahir E., Adam G., Lund G.**

Size of late gadolinium enhancement in patients with hypertrophic cardiomyopathy in correlation with serum MMP9 as an indicator of myocardial fibrosis (SS 203), B-0169

**Avanesov M., Seiffert M., Conradi L.,**

**Lunau C., Schirmer J., Adam G.,**

**Blankenberg S., Reichenspurner H., Lund G.**

Evaluation of aortic valve calcium and feasibility of transcatheter aortic valve implantation with first- and second-generation transcatheter heart valves (SS 903), B-0608

**Ayuso C.**

Assessing HCC response to ...: C. Ablative therapies (CC 1218), A-377

**Azavedo E.**

Mammography: C. Screening mammography (E<sup>3</sup> 420b), A-079

**Azulay G., Omoumi P., Aguilar G., Monres J., Brandao M.**

The Mick Jagger position: a new manoeuvre for the intra-articular biceps ultrasound visualisation (SS 110), B-0041

**Azulay G., Rossi I., Omoumi P., Brandao M.**

A new dynamic manoeuvre to differentiate complete vs. partial distal bicep tears at ultrasound (SS 110), B-0042

**Azzouz M., Roemensing J., Thomsen H.**

CIN or just fluctuations? (SS 1306), B-0753

## B

**Ba-Ssalamah A.**

Oesophageal and gastric cancer: A. Modern imaging: an update (CC 1621), A-518

**Ba-Ssalamah A.**

Managing incidental findings in cancer patients: A. Abdomen: common pitfalls and protocol issues (RC 1916), A-587

**Baglio I., Camera L., Barbazeni G.,**

**Cavedon C., Piubello Q., Montemezzi S.**

Vacuum-assisted breast biopsy using computer-aided 3T-MRI guidance: a preliminary experience (SS 102b), B-0078

**Balassy C., Feier D., Wrba F.,**

**Witoszynskij S., Ba-Ssalamah A.**

The effect of echo times on the accuracy of susceptibility weighted magnetic resonance imaging in staging liver fibrosis (SS 1701), B-0767

**Balasubramaniam R., Subesinghe M., Smith J.**

The malignant proliferation of MDT meetings: can radiology departments continue to support them all? (SS 216), B-0209

**Balasubramaniam R., Lyall H., Gupta H., Robinson P.**

Imaging follow-up of large and symptomatic soft tissue lipomas (SS 910), B-0562

**Bale R.**

Molecular and functional imaging methods for interventions: Interventional oncology based on molecular and functional imaging (Joint Session of ESR/ESMOFIR and ESMI), A-260

**Bale R., Widmann G., Schullian P., Haidu M., Jaschke W.R.**

Molecular imaging and targeted-image guided therapy in gastrointestinal stromal tumours: Stereotactic radiofrequency ablation of liver tumours: does improved targeting increase tumour response? (MITIGATE Session), A-274

**Bali M.A.**

Technical advances in liver and pancreatic imaging: B. Diffusion and perfusion (RC 1501), A-460

**Ballegaard C., Riis R., Christensen R.,**

**Henriksen M., Bartels E., Lohmander S.,**

**Hunter D., Bouert R., Boesen M.**

Knee pain and inflammation in the infrapatellar fat pad estimated by conventional and dynamic contrast-enhanced magnetic resonance imaging in obese patients with osteoarthritis: a cross-sectional study (SS 1810), B-0963

**Balleyguier C.S., Ben Lakhdar A., Dunant A., Mathieu M., Delalogue S., Sinkus R.**

Value of MR-breast elastography as an adjunct tool to MRI to diagnose and characterise breast lesions (SS 1802), B-0999

**Balleyguier C.S.**

Role of MRI in the breast cancer pathway in challenging situations (SY 17)

**Balleyguier C.S., Canale S., Ciolovan L., Dromain C.**

Breast US: C. Sonoelastography and ancillary modalities (E<sup>3</sup> 520b), A-122

**Balodis A., Kupcs K., Kidikis H., Miglane E.**

Mechanical thrombectomies performed in acute ischaemic stroke patients in Paula Stradins Clinical University hospital during 2010. - 2013 (SS 909), B-0618

**Baltzer P.A.T., Pinker-Domenig K.**

Emerging breast imaging technologies: B. Multiparametric high-field MRI and more (RC 1902), A-595

# Authors' Index

- Baltzer P.A.T., Pinker-Domenig K., Bernathova M., Helbich T.H.**  
Can we reduce the number of MR-guided biopsies? Application of an algorithm that increases specificity (SS 102b), B-0074
- Baltzer P.A.T., Pinker-Domenig K., Bernathova M., Helbich T.H.**  
BI-RADS 4 lesions only visible on contrast-enhanced MRI: can apparent diffusion coefficient measurements differentiate benign from malignant? (SS 1302), B-0695
- Baltzer P.A.T., Dietzel M., Kaiser W.A.**  
Unenhanced MRI of the liver: morphology assessment on diffusion-weighted images has additional diagnostic value to quantitative apparent diffusion coefficient (ADC) measurements (SS 1701), B-0765
- Bamberg F.**  
Quantification of myocardial perfusion: which test is the best (PET, MRI, MDCT)? B. Stress perfusion CT imaging for the detection and quantification of relevant coronary stenosis (RC 803), A-240
- Bankier A.A.**  
Pulmonary vasculitis and systemic diseases: D. Inflammation and remodeling (RC 304), A-014
- Bankier A.A.**  
Managing incidental findings in cancer patients: B. Chest: CT follow-up and advanced techniques (RC 1916), A-588
- Barbara A., Ferreira J., Lanca L.J.O.C.**  
Preventable exposure in routine chest CT examinations: evaluation of effective dose beyond prescribed anatomical landmarks (SS 914), B-0626
- Barentsz J.O.**
